

NOTE: Call the names under each town printed in **Bold Black Type** and then at the end of each town, ask for missed from that town. Those names in *standard small type* seldom check in. Their calls and names remain on the list in case they **do** check in...this way you will have their names and call signs handy.

Be sure to allow some time after you key the mike to give the repeater time to “come up” before you transmit. Also, remember to limit your transmission times to less than three minutes – or the repeater “alligator” will time you out. In addition, **don’t forget** to identify every ten minutes and at the conclusion of the Net.

(This Net Script was last updated May 30, 2017)

“Good evening. This is the Jefferson/Crook County ARES/RACES Emergency Communications Net, which meets every Monday evening at 7:00. Our purpose is to maintain an association with, and be prepared to primarily aid, Jefferson and Crook County authorities with emergency communications upon request.

At the conclusion of the net, I will take items for sale or swap.

Your net controller for this evening is (CALL)_____and my name is_____located in (town)_____. We operate on the N7CCO Grizzly Mountain Repeater located between Madras and Prineville. The frequency is 147.38 MHz with a sub audible tone frequency of 162.2 Hz. If the repeater is down, we operate on 146.52 MHz simplex. (Ask for relays if operating simplex.)

The JEF-CRO ARES/RACES Emergency Communications Net is now open for emergency or priority traffic: (Stand by momentarily for possible traffic)

Are there any stations operating on emergency power or from mobiles?

Are there any operators who need an early out?

Announcements by Net Control:

- 1. Please check the Grizzly Website (www.grizzlyrepeater.com) for additional announcements, Repeater Updates, Net notes, Additional pictures, Net Script, Lunch Gatherings, etc.**
- 2. All HAMS are encouraged to become familiar with the Incident Command System (ICS) in order to better aid local officials who will be using ICS in responding to emergencies. RACES members are REQUIRED to have ICS-100, ICS-200, and ICS-700 certifications. Free courses are on the FEMA website.**
- 3. All HAMS and significant others are invited for a no-host coffee and conversation on Wednesday mornings, 10:00 AM, at the Prineville Coffee Company. (Located at NW Third St. and Meadow Lakes Drive)**

Net:

This is a Directed Net and stations will be invited to check in by town. Stations are alphabetized by town and call sign. I will call you and ask for a response. If I miss you, I'll call for missed at the end of each town and again at the end of the Net. Please address all transmissions to Net Control, and remain on frequency for the duration of the Net - unless excused by Net Control with an "early out".

Are there any visitors to the net tonight?

Are there any missed or late Check-In's from anywhere?

Other Announcements/Comments/Suggestions?

Does anyone have an announcement or information for the Jef-Cro group that he or she would like to share?

Sale or Swap:

At this time, I will take listings for sale or swap. Please give your Call, Name, Phone Number and items available.

1.

2.

3.

“Thank you for checking in this evening.

Your Jef-Cro Net Controller for next week will be (Name) _____ (Call Sign)_____. This is (Call Sign)_____closing the net and returning the Grizzly Mountain Repeater to normal operation. Thank you to the stations that stood by to give the Net a clear frequency.”
